MARYSVILLE  
WALKS INC.

# Get involved!

## Join the Friends of Marysville Walks Inc!

The Friends of the Marysville Walks Inc. is a group of local people and regular visitors concerned about invasive plants infiltrating areas of native forest around Marysville. The group gets together for nature walks, on-ground weed removal, revegetation, information sessions, research work and surveys. Because of the recent fires, our bushland is very vulnerable to invasive plant infestation.

As a volunteer, help to restore habitat diversity for the benefit of our natural environment, yourself and your community. Join us to share in the satisfaction of helping our bushland regenerate and enjoy the company of others in an outdoor environment.

*Anyone can do it!*
