# MARYSVILLE BIG SCREEN

---

The Marysville Big Screen located at the Car Museum is aimed at providing a significant cultural, social and sporting focus in a unique gathering space for many events for a seventeen week period. An alliance between Fed Square, Centacare Catholic Family Services, Regional Arts Victoria and the Marysville Triangle Development Group with the support of the Helen Macpherson Smith Trust and Australian Children's Trust have been responsible for the project.

The Marysville Big Screen opens up potential for special community activities and performances, which can be exhibited on the screen.

Project Manager Bridget Lloyd-Jones has been appointed to establish and manage the screen locally and ensure ongoing relevant content and events in consultation with the local community.

A broad variety of content will be screened as determined by local demand.
