

## HELPING COMMUNITIES TO REBUILD AFTER THE BUSHFIRES

Bunnings Trade would like to extend our deepest sympathy and support to the Victorian communities affected by last February's devastating bushfires. As people in these areas prepare for the massive challenge of rebuilding, we aim to help them get back on their feet as soon as possible, by assisting where we can with the building process.

As you may already be aware, Bunnings Trade has prepared an offer for its trade customers to assist with any rebuilding project. When talking to your builder, ensure they are being supplied by Bunnings Trade and are taking advantage of the special bushfire rebuilding offer. If they aren't, get them to contact us on 8831 9200.

If you are an owner builder, we can also help with the supply of bulk trade building materials and associated products. This will include providing additional delivery services from our dedicated Trade Centres to maximise efficiencies through-out the rebuilding process.

Our Bushfire Rebuild Program also includes a 8831 9200 phone line to direct help with;

- Technical assistance on quotes for complex products such as Frame and Truss and windows
- Setting up a credit account with Bunnings
- Full estimates on all aspects of re building a residential property.
- Supply and Install of many products such as carpets, kitchens, frame and truss, water tanks, hot water services etc.
- 24hr Frame and Truss quotes and guaranteed delivery within 7 days.
- Next day delivery on all other building products within certain areas.
- Local Bunnings Trade representatives on hand to help with all your needs.

Don't forget everyday lowest prices are available at all our Bunnings stores.

For more information, please do not hesitate to make contact with our Customer Service Manager, Kellie Mather and her team to assist with all rebuilding project enquiries. Kellie can be contacted on 133 062 or [kmather@bunnings.com.au](mailto:kmather@bunnings.com.au).

So whether you are embarking on a rebuilding project or have a builder completing for you, be sure to speak with Bunnings Trade and learn more about what we can do to help.
