

OPPORTUNITY

An opportunity to be in business for yourself but never by yourself... the potential to finally earn what you're worth...the flexibility to work when you want... the freedom of time to enjoy life...and the support system to make it all possible.

Capitalising on the trillion dollar telecommunications market, a company that has helped countless individuals build successful businesses of their own. By simply offering **consumers a better option for the services they already need and use every day – and the innovative services of the future** – individuals just like you are building lucrative part-time and full-time businesses, while enjoying long-term residual income – that's income with real staying power.

A company that passes traditional above-the-line advertising outlets to pass savings directly onto our customers, while enabling Independent Representatives to build a successful business of their very own. Whether it is more time, more money, or simply more fun that you are looking for – this company is the solution!

The Industry

- Fast-growing \$1.5 trillion dollar global industry
- Strong market with a focus on customer choice
- Valuable fixed wire and mobile telecommunication services

The Business Model

- Essential products and services people already need and use
- Simple - no invoicing, no collections, no inventory
- Proven - 15 year successful track record
- Universal - no experience necessary. Anyone can SUCCEED.

Income Potential

- Unsurpassed compensation plan
- Immediate income potential
- Long-term, residual income offering the possibility of real financial freedom

Support and Training

- Comprehensive education and support system
- Dynamic educational and motivational events - both local and international
- User-friendly educational and marketing materials
- Personalised service for your valued customers, family and friends
