Farewell

And then they were GONE!!

After 14 months of helping locals get back on their feet the lower chalets are gone. As I type 3 chalets have most likely, already made it across the Nullabor and number 4 touched down at the Caravan Park at approx 2pm Monday afternoon.

So how do you move something 14m by 3m by 4m - well . . . first of all take a 36 tonne crane, some good blokes who know the job and 3 gooseneck semis. I personally liked the Black Mack Superliner - half a million kms on the clock and only just run in.

By 4pm all the SPQs had been loaded, 3 were already off to new homes and the 4th sat in the top car park overnight due to 'daylight hours only' travel restrictions. Come 7am and chalets 137-140 were off up the highway, Alexandra bound and on beyond.

Doesn't the area look so different and gives a fresh new look to this part of the Village. My only problem - now I can see work from home and vice versa - hmmm - now where do I get a nice screening hedge from - David? Michael?? Anyone??

GOOD STEWARDSHIP

We're 12 months on from the initial development of the Village and locals taking up residents. We still have lovely facilities for our whole community to enjoy and I guess living in the Village means we have more access than most. How do we ensure that these wonderful resources are well cared for - who's job is that?

We all have a joint responsibility to take care of these communal assets and the venues we use and the grounds we temporarily call home.

How do we do that?

1. Shut the doors (this one needs to be passed on to our little people especially) - keeping mice and mess out is challenging enough, so when doors to the Kitchen or Games Room is left wide open - we're inviting problems - lets make sure they're closed firmly behind us whether in or out.
2. Clean up after yourself - especially in the kitchen, laundry, games room and BBQ areas.
3. Litter - do your little bit - communal bins are located at all venues and the playground - please use them appropriately and let's remember to recycle.
4. Breakages and problems - let the Village Manager know as soon as possible, so that these can be actioned quickly - remember it's more important to ensure safety than place blame.

Lead the Pack - Keep on Track

'Please keep off the Grass' Winter is here and so is the wet. Slick lawns and red clay mean getting off our Village roadways even a little can be hazardous and dangerous. Please park in your designated area or as close to for 2nd vehicles.

Lawns turn to red mud ruts quickly, cars lose traction and all too often the mess and muck ends up tracked into your unit - uurghh!!

15 kph - Every street in the village is a legal roadway and as such the speed limit of 15kph is enforceable by law. Yes it's slow. Yes it necessary for all Village user's safety - residents and visitors alike.

When was the last time you checked your speed as you drove through the Village - I know I can hear you say 'I'm not going very fast' or 'I'll go slower next time - I've got to be somewhere now and it's important'. Each of us is important to someone else in our lives, family and community. So Slow down, I dare ya - 'go ahead - make my day.' and you know what it will make someone else's day too.

ONE WAY: Village Way and Fern Tree Drive are One Way Streets in the Village - by deliberately ignoring road signs you place yourself instantly negligible in the eyes of the law and jeopardize your insurance too. Is it worth the risk??

Please pass this on to all of your visiting friends and family. Everyone will thank you.

KITCHEN AMNESTY: We are urgently seeking the return of all kitchen utensils, crockery and cutlery. Over the last few months as we've all got more comfortable – items have been borrowed from the kitchen. Sometimes meals were prepared in the kitchen and taken back to your unit or donga. Please make sure these items are returned so we can all enjoy them for community dinners and events. With Material Aid gone we need to keep this facility's kitchenware complete.

Community Dinner Night
